## Quick Start Guide

### Get the Rocketbook app – search Rocketbook

The rocket icon destination is by default your email address. Take notes and send them to your Inbox for a permanent record.

Set your other destinations – use as many or as few as you would like. ATI suggests you set your Diamond to the email address of your coach. That way you can get help staying on track after SuperConference. Take a note, make a plan, make a commitment, write a takeaway, whatever you want your coach to know about.

Want to share your notes with your mate or partner? Share ideas as you split up for breakouts. Pick an icon and send away. Share your ideas later.

Consider setting up a shared Google Drive where you can organize your notes together all in one place.

Hey, for those who write legibly, there is even an OCR function to convert your notes to text! Give it a try. Way too many Rocketbook features to cover in this guide. Dive in and make the most of it.
